Two To View - A Couple Of Amazing Videos You Don't Want To Miss

Toddler Works Out With Rocky
This hilarious video shows a toddler who watches Rocky work out and mimics his moves. You won't believe this lightweight's skills!

Buttery Bloopers
Watch a husband and wife have fun trying to get their lines right in a commercial for pot pies at Dysart's Restaurant in Bangor, Maine.

How To Make Your Home's Wi-Fi Faster

[Woodstock Communications](#) offers lightning-fast Internet speeds, but if your Wi-Fi router is out of date or not set up correctly, it could be slowing you down. Here are some tips to help you maximize router performance and enjoy the Internet speed you ordered:

- **Upgrade your router.** If your household has several people — each with a computer, phone, and tablet — plus there's a gaming console, your entry-level router's capacity might be exceeded. A home network with this much online activity warrants the purchase of an upgraded router.
- **Move your router to its ideal position.** Keep your router centrally located and away from thick walls made of brick or concrete, water, and windows.
- **Make sure your router is secure.** Putting a password on your router or limiting which devices can access your network will keep other people from using your network and slowing it down.

If you need a new router or have questions about your Wi-Fi network, stop by our office.

FREE Featured Apps - These Three Are Well Worth A Look

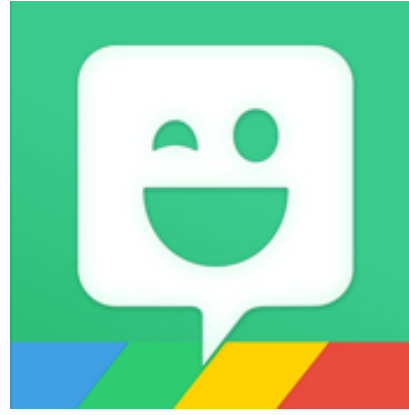

EasyMeasure
How far away is that boat or building? This app shows you the distance to objects seen through the camera lens of your device.

Be Aware - Ransomware Posing As Windows Update

Ransomware is a type of malicious software (malware) that cyber criminals can install on your computer, enabling them to hold your files for ransom. They use a variety of means to do this, including email attachments, fake websites, and phony ads. They're counting on you opening their attachment, or clicking on links within their emails or on a website...

Sites of the Month - Great Sites To Check Out In October

Find Forgotten Cash
[usa.gov/unclaimed-money](#) – Wouldn't it be nice to find some extra cash for holiday shopping? Now you can discover if any is coming your way. Forgotten bank accounts, undelivered tax refunds, and other funds are held as "unclaimed money." Use the USA.gov site to search for and claim amounts being held on your behalf.

Save Big On Flights
[cheapoair.com](#) – It's time to start thinking about holiday travel plans and this site can help. CheapOair offers a "best price guarantee" as well as easy booking and 24/7 customer care. Search for flight information as you would on other travel sites or check out "Today's Flight Deals," "Featured Offers," or "Last Minute Flights."

Breast Cancer Awareness
[cancer.org](#) – October is breast cancer awareness month and the American Cancer Society (ACS) has a lot of information to share. Explore this site to learn about cancer, get involved, and stay healthy. If you want to dig deeper, you can explore important cancer research or find a local ACS chapter.

Best Homemade Pizzas
[foodandwine.com](#) – You can't beat pizza for family movie night or just about any night! This site offers crazy-creative recipes like Summer Squash Pizza with Goat Cheese and Walnuts, and Clam Pizza with Salad Topping. When you find one you love, click a share button to post the recipe on social media.

Short Tutorial/FAQ - What Is Scareware And How Can I Avoid It?

Question: I know scareware is something bad that can happen on my computer, but I'm not sure exactly what it is. What is scareware, and how can I prevent it?

Answer: Scareware is a form of malware (malicious software) that cyber criminals can install on your system to make you think something bad is happening...
